This document provides automated AI decision support, feasibility analysis, and personalized growth recommendations powered by SME360 AI engine.

1. Executive Summary & Feasibility Snapshot

Trendy Style Clothing Shop is a proposed new startup venture within the Clothing / Garment sector, planned for launch in Colombo, Western Province, Sri Lanka. The enterprise is structured under a Direct Retail / Service model, providing commercial offerings tailored to the local market catchment. As a new venture in its initial setup phase, commercial priorities center on establishing initial operations, building customer awareness, and maintaining disciplined operating expenditure. Based on the operational details provided: I plan to establish a small clothing shop offering fashionable and affordable clothing for men, women, and children. The shop will sell T-shirts, trousers, dresses, casual wear, office wear, and seasonal clothing. My target customers include students, working professionals, families, and budget-conscious shoppers in the surrounding residential area. I plan to purchase clothing from reliable local wholesalers and suppliers to provide different designs, sizes, and price ranges. I will attract customers through competitive pricing, seasonal discounts, social media promotions, and friendly customer service. My main competitive advantage will be offering trendy clothing at affordable prices in a convenient location. Initially, I expect to invest approximately LKR 600,000 in inventory, shop setup, display racks, and other startup expenses. My goal is to build a loyal customer base, manage stock efficiently, and gradually expand the business according to customer demand.

Predicted Feasibility	Model Confidence	Available Capital	Target Customers
Conditionally Feasible	**47.0%**	LKR 600,000	10 / day

Model Feasibility Probability Distribution

2. Business Overview

Business Category:	Clothing / Garment	**Entrepreneur Experience:**	2 Years
Business Stage:	New Startup	**Available Staffing:**	2 Person(s)
Operating District:	Colombo	**Market Competition:**	Moderate

3. Financial & Operational Plan

4. Key Business Factors

Top Positive Supporting Factors (+):

- Available Capital (Lkr) (LKR 600,000)
- Business Stage (New Startup)
- Expected Product Price (Lkr) (LKR 500)

Areas Needing Strategic Attention (-):

- Available Equipment Score (1-5) (4 / 5)
- Available Staff Count (2 Staff)
- Business Category (Clothing/ Garment)

5. Strategy Priorities & Options Comparison

Top Recommended Direction: **Storefront + Home Delivery Model** (Decision Support Score: 0.6357)

Rank	Strategy Name	Focus Area	Est. Capital	Score
#1	**Storefront + Home Delivery Model**	Growth	N/A	0.6357

6. Time-Phased Action Roadmap

Phase 1: Immediate Launch Preparation (0 – 3 Months)

- Establish initial operational workspace and layout for Trendy Style Clothing Shop.
- Configure storefront and home delivery coordination for Trendy Style Clothing Shop in Colombo.
- Confirm commercial supplier agreements and inventory delivery terms.

Phase 2: Operational Stabilization (3 – 12 Months)

- Launch targeted customer outreach to attain 11 daily patrons.
- Monitor monthly operating burn closely against LKR 38,250.00 budget.

Phase 3: Growth & Expansion (1 Year+)

- Conduct quarterly financial review and audit simplified budget coverage.
- Evaluate whether commercial expansion or channel extension is justified.

7. Assumptions & Important Disclosures

- Feasibility classification and decision rankings are model-based analytical estimates derived from Sri Lankan SME empirical datasets.
- Financial projections assume 26 active operating days per calendar month and steady unit pricing.
- External macroeconomic conditions, tax policy alterations, and unexpected inflation are not dynamically modelled.
- Entrepreneur should perform on-the-ground market validation before committing heavy capital investments.
